風味魚糕

The fiber structure of Royal Carib is completely different from the other types of stick-shaped products. Royal Carib has leaf-vein fibers like those of real crab meat, so you can recognize it thanks to this feature. Royal Carib is popularly used as an ingredient of sushi at many restaurants all over the world.

以最高等級的鱈魚魚漿為原料,採用獨家專利的葉脈狀生產技術,是本公司龍頭產品之一。本產品不使用任何化學防腐劑和色素。
